

GH House

Mazatlan, Mexico

2018

Residential

1,651 m²

Interior Design

Víctor de Rueda

Photography

Aldo C. Gracia

Located on the top of Cerro del Vigía, the house has the Pacific Ocean horizon as the main view, in addition to the iconic Mazatlan Lighthouse, the port, the Olas Altas Promenade and the Claussen Promenade.

The project consisted of remodeling an old house on a plot of 1,336m². With a contemporary tropical style, the house is distributed on three levels. The interiors are designed to optimize, direct and enjoy natural lighting, the views and comforting coastal winds.
